

Maintenance Report  
Parish AGM – 18 June 2010  
Cyril Ginger

The living Church needs constant minor attention throughout the year as it is used on a regular basis and some parts of the structure and contents need to be repaired.

I, as the Maintenance Committee, inspect the main Church on a regular basis: Church pews, kneelers and floors. Canon Eddie and the member of the Parish Pastoral Council also keep an eye out for anything that needs my attention.

The main doors of the Church have been repaired and refitted so there is no longer a shoulder needed to shut the doors.

A "high" clean has been carried out to remove the spiders' webs and dust that has accumulated (though the Sanctuary lamp has still got its web).

The Church's boiler is also checked on a regular basis to ensure that you have a nice warm Church to sit in.

The Committee works in the background of the Church and I hope that the efforts made to date are appreciated. The Church will continue to be the number one priority in terms of works to be undertaken in order to maintain it at a good standard.

Lastly, if anyone would like to volunteer to join me on the Maintenance Committee you will be welcomed with open arms!

Cyril Ginger  
Chairman  
Maintenance Committee
